

BioEnergiser™

Detox Foot Spa

A Relaxing 30 Minute Treatment clinically Proven to be Effective

The Bio-Energiser Detox SPA system is a revolutionary treatment designed to help rebalance your body. It creates renewed energy levels and a feeling of well being. The Bio-Energiser kick starts your natural detoxification process.

The treatment can help renew energy levels, both physical and mental, which in turn help create a general feeling of well being.

The relaxing 30-minute treatment involves placing your feet into a spa bowl filled with warm salted water. An Energizing Cartridge creates a flow of electrons and a bioenergetic field that provides a relaxing and enjoyable treatment.
